WOCA DIAMOND OIL NATURAL
OAK VENEER CABINETRY, WALLS & CEILINGS

WOCA as a brand is in-line with everything we stand for at Pennant & Triumph – quality, sustainability, and a huge passion for beauty in design. WOCA oil allows us to showcase timber finishes on joinery, floors, ceilings, and walls by enhancing and protecting the natural features, whilst maintaining an unfinished and natural look.

— Justin Roderique, Pennant & Triumph

APPLICATION PROCESS

DIAMOND OIL

1. Apply WOCA Wood Cleaner, diluted 1:40 with water, to the clean, dry surface.
2. Apply Diamond Oil to the surface sparingly using a speed brush or roller. Allow the product to penetrate.
3. After 20 minutes, rub the oil into the wood with a cloth, nylon pad, or 360° gib tool.
4. Remove all excess from the surface with a clean cloth.
5. Dispose of cloths in a plastic bag containing water to avoid spontaneous combustion.

The wood will be dry after 48 hours and fully hard after 7 days. Clean and maintain with WOCA Natural Soap, diluted 1:40.

A photograph of a modern office interior. The space is bright and open, with a wooden floor and large glass walls. A staircase with a white railing is visible on the right. In the foreground, there are two large potted plants. The text "Webb Henderson Law Office" is overlaid in large white letters on the left side of the image.
