

Project of the month.

January 2019.

St Matthew's in the City

AUCKLAND CBD
PHOTOGRAPHY: MOHINI MANU

St Matthews is a historic Anglican church in central Auckland, completed in 1905. Due to the thousands of people (and animals) who walk through the church, and the constant moving of heavy furniture, the timber needed a durable finish that would be easy to maintain. To finish the NZ kauri floors in 2005, WOCA natural timber oils were applied. Over the last 14 years, hundreds of services and events have been held on these floors, and WOCA has offered a very strong level of protection that is easily cleaned with WOCA Natural Soap, keeping the floorboards in their original condition.

INTERIOR

WOCA Diamond Oil Active is a fully penetrating timber-finishing product that leaves a natural and honest representation of wood. The benefits are also in what cannot be seen – Diamond Oil Active is derived from vegetable oil components and has no VOC, so it is eco-friendly and non-harmful for an everyday living or working environment with children and pets. WOCA Diamond Oil Active is suitable for all interior timber surfaces.

WOCA NATURAL OIL
NZ KAURI FLOORS

- 100% penetrating oil, not film-forming, therefore no flaking or peeling
- Based on vegetable oil components
- No VOC
- 99% solid content
- Natural, sustainable and eco-friendly
- Ingredients independently certified by the German Biological Building Institute (IBR)
- Suitable for all interior timber surfaces

APPLICATION PROCESS

DIAMOND OIL ACTIVE

1. Apply WOCA Wood Cleaner, diluted 1:40 with water, to the clean, dry surface.
2. Apply Diamond Oil Active to the surface sparingly using a speed brush or roller. Allow the product to penetrate.
3. After 20 minutes, rub the oil into the wood with a cloth, nylon pad, or 360° gib tool.
4. Remove all excess from the surface with a clean cloth.
5. Dispose of all cloths in a plastic bag containing water to avoid combustion.

The wood will be dry after 48 hours, and fully hard after 7 days. Clean and maintain with WOCA Natural Soap, diluted 1:40.
