

Project of the month.

September 2018.

The Diamond Shop.

PONSONBY, AUCKLAND
INTERIOR DESIGN: JESS INTERIORS

WOCA DIAMOND OIL

WOCA Diamond Oil is a fully penetrating product that leaves a natural and honest representation of timber. The benefits are also in what cannot be seen – the ingredients of Diamond Oil are derived from vegetable oil components, so it is eco-friendly and non-harmful for an everyday living or working environment.

WOCA DIAMOND OIL NATURAL
KAURI FLOORING

- Based on vegetable oil components
- 100% penetrating oil, not film-forming
- No VOC
- 99% solid content
- Natural, sustainable and eco-friendly
- Ingredients independently certified by the German Biological Building Institute (IBR)
- Suitable for all interior timber surfaces

APPLICATION PROCESS

DIAMOND OIL

1. Apply WOCA Wood Cleaner, diluted 1:40 with water, to the clean, dry surface.
2. Apply Diamond Oil to the surface sparingly using a speed brush or roller. Allow the product to penetrate.
3. After 20 minutes, rub the oil into the wood with a cloth, nylon pad, or 360° gib tool.
4. Remove all excess from the surface with a clean cloth.
5. Dispose of cloths in a plastic bag containing water to avoid self-combustion.

The wood will be dry after 48 hours, and fully hard after 7 days.

Clean and maintain with WOCA Natural Soap, diluted 1:40.
